THIEVES CAPTURED.

Four Tough Men Gathered In by Great Falls Officers.

GREAT FALLS, Dec. 7.—Four men were lodged in the county jail last evening, charged with stealing. The men, whose names are Brown, Clifford, Calligan and McGregor, are a part of a band of petty thieves who have given considerable trouble to citizens here for some time, holding up parties on the streets after night and committing other robberies. They occupied a shack a short distance up the river and from appearances had made stealing a regular business for some time past. The shack was searched and numerous articles were found which were stolen from stores and houses in the city.

The county commissioners met this morning and will continue in session the remainder of the week. The principal business to-day was listening to the applications for a rebate of taxes.

AFFAIRS IN THE COUNCIL.

For a Change the Aldermen Got Along Very Peaceably.

TALK ABOUT THE POLICE

The Office of Inspector of Weights and Measures Proposed to Be Created—That Telephone Franchise.

A regular meeting of the city council was held at Standard hall last night, all members being present except Aldermen Johnson and Walkup. The meeting was harmonious and brief. Alderman Martin reported that the finance committee had examined and approved the reports of the police magistrate. The Bell Telephone company's ordinance was called up, but it seemed to be in statu quo, and it was deemed best to leave it that way. City Attorney English said the superintendent of the county had been in town several times, but had not taken the trouble to call and talk over the objections that had been raised to certain features of the ordinance. On motion of Alderman Martin the city attorney was requested to frame an ordinance that would protect the city's interest and submit it to the next meeting.

Alderman Shovlin thought that now that the smelters were running, the regular police force should be restored to its former size. Mayor Redmond said its former size has already been restored, the quota being made up of special officers. This didn't satisfy Alderman Shovlin. He wanted regular officers appointed and confirmed. The mayor said he would do something about it at the next meeting.

A bill from County Clerk J. F. Brazelton for \$150 for extending the tax rolls, and one for \$25 from the Montana Lumber & Produce company for hay and other material furnished the pound were referred to a special committee consisting of Aldermen Shovlin, Fitzpatrick and Martin, for investigation. All the other bills presented were audited and ordered paid. Alderman Martin thought it would be an excellent idea to appoint an inspector of weights and measures, with particular reference to hay, wood and milk. Coal oil was also suggested as a proper subject for inspection, and Alderman Martin agreed that it was. He said he, there was no state law providing for the inspection of coal oil. Messrs. King, Shovlin and Fitzpatrick also participated in the discussion and the city attorney was requested to look up the state laws relative to the subject and report at the next meeting.

THE MYSTERY OF THOS. ARNOLD

His Companion is Requested to Attend the Inquest To-Day.

Thomas Arnold, who died at St. Ann's hospital Sunday morning, was buried by Undertaker Ehret yesterday afternoon at 3 o'clock. The man walking with Arnold at the time of the accident called at Ehret's undertaking rooms yesterday morning and asked to look at the remains. He said he would remain in Anaconda and try to get work.

Acting Coroner O'Leary began an inquest last night. Drs. Snyder and Spelman testified to being called to the depot and examining Arnold. The doctors found he had compound comminuted fractures of both legs, fracture of the skull and that he was suffering from a shock which caused his death. As there were no other witnesses the inquest was adjourned until this afternoon, when the crew of the train which struck Arnold will tell what they know. Judge O'Leary also desires Arnold's companion to call this afternoon and tell what he knows. Deputy Sheriff Tracy and Mr. Ehret hunted the town over yesterday afternoon but could not find him.

In Arnold's clothes were found an express check from Butte to Drummond, Mont., and a piece of white news paper, on one side of which was written, "Belle Sullivan, Silver Bow house, Butte, Mont."

The STANDARD has received the following letter from Arnold's companion:

To the Editor of the Standard:—Allow me to correct statements published in your Sunday's edition concerning myself. Being a working man and not a cur, as it seems was insinuated by some of those cringing railroad lackeys, I being the person who jumped from the trestle, which is fully 15 feet high, instead of six feet high, as mentioned in your paper, and allow me to state right here what I think, should be in a position to know that it was a piece of gross carelessness on the engineer's part in not whistling at the curve just before passing the bridge. Had he done so, which I think is the proper thing to do, we would not have crossed the bridge and the poor fellow would have been injured. There would have been ample warning had the engineer done so. The injured man laid in the water, which is very deep at the place he was thrown off, fully 10 minutes, before one of the train crew presented an effort to move him. The train was running fully 20 miles an hour at the point where the accident happened, instead of 12, as stated by the railroad people. Hoping to see a correction made, I remain no cur, but

LEWIS C. JONES.

The railroad men whom Mr. Jones assumes to criticize are among the best known and most honorable in the employ of the Montana Union, and the STANDARD places implicit confidence in their statements. Any assertion that they did not hasten to the rescue of the injured man from the water with all speed and do everything for him that lay in their power, is preposterous. Mr. Jones cannot make the community believe anything of the kind. Instead of trying to find fault with the railroad men, Mr. Jones should have attempted to explain his conduct in running away to the woods when the railroad men requested him, as an act of ordinary humanity and decency, to get into the caboose and accompany his dying companion to Anaconda.

BUTTE, Dec. 7.—Belle Sullivan was found at the Dew Drop saloon to-night. She is a decent waitress. She says she remembers Arnold calling on her the other day and she gave him her address. She knows nothing about his relatives. She came to Butte from Philipsburg a week or so ago.

GRANITE NOTES.

Barnard for Blair & Co., New York, par less \$3,042, commission on bonds to be payable in gold; H. B. Palmer for Tarson, Leach & Co., premium of \$500; H. B. Pimples.

The old idea of 40 years ago was that facial eruptions were due to a "blood humor," for which they gave potash. Thus all the old Sarsaparillas contain potash, a most objectionable and drastic mineral, that instead of decreasing, actually creates more eruptions. You have noticed this when taking other Sarsaparillas than Joy's. It is however now known that the stomach, the blood creating power, is the seat of all vitiating or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, result pimples. A clean stomach and healthful digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compounded after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate and most satisfactory. A short testimonial to contrast the action of the potash Sarsaparillas and Joy's modern vegetable preparation. Mrs. C. D. Stuart, of 409 Hayes St., S. F., writes: "I have for years had indigestion, I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently, I tried it and the pimples immediately disappeared."

NO MORE BACKACHE
OREGON KIDNEY TEA
Recently the following notice appeared in the San Francisco Chronicle.
"Judge S. had been sick only about two weeks, and it was not until the last three or four days that the malady took a serious turn. At the beginning of his illness he suffered from diabetes and stomach disorder. Later the kidneys refused to perform their functions and he passed quietly away. Thus ended the life of one of the most prominent men in California." Like thousands of others his untimely death was the result of neglecting early symptoms of kidney disease.
IF YOU are troubled with diabetes, gravel, or any derangement of the kidneys or urinary organs, don't delay proper treatment until you are forced to give up your daily duties; don't waste your money on worthless liniments and worse plasters, but strike at the seat of the disease at once by using the greatest of all known remedies, the celebrated Oregon Kidney Tea. It has saved the lives of thousands. Why should it not cure you? Try it. Purely vegetable and pleasant to take. \$1.00 a package, 6 for \$5.00.
